Purpose: Within survey imputation for missing values in survey variables contained in derived datasets. Creates 5 multiply imputed datasets by population for use in disease calibration step.

Community population -- Program/code required:
1. impute_mcbs09.sas
2. mcbs09.set

Institutionalized population -- Program/code required:
1. impute_mcbs_09_inst.sas
2. mcbs09_inst.set
3. mcbs09_inst_2a.set
4. mcbs09_inst_2b.set
5. mcbs09_inst_2c.set
6. mcbs09_inst_2d.set
7. mcbs09_inst_2e.set

IVEware is required to run these data processing steps.
